

Introduction	iv	A3.1	Trial and improvement	102
N1.1	Powers of 10	1	A3.2	Algebraic methods
N1.2	Rounding and estimation	6	A3.3	Formulae and expressions
N1.3	Multiplying and dividing	11	N3.1	Using fractions and percentages
A1.1	Using letters	13		114
A1.2	Expressions	17	N3.2	Using ratios
			N3.3	Mental methods
				126
GM1.1	Polygons	20	GM3.1	Constructions
GM1.2	Circles	27	GM3.2	Loci
GM1.3	2-D shapes	33	GM3.3	Visualising 3-D shapes
				143
S1.1	Collecting data	37	S2.1	Statistical investigations
S1.2	Working with data	44	S2.2	Interpreting and communicating
S1.3	Representing data	52		152
N2.1	Factors, multiples, primes and powers	60	N4.1	Written methods
N2.2	Adding and subtracting fractions	65	N4.2	Calculator methods
N2.3	Multiplying and dividing fractions	69		
A2.1	Algebraic fractions	74	A4.1	Sequences
A2.2	Linear equations	77	A4.2	Linear functions
			A4.3	Real-life graphs
				179
GM2.1	Reflections, rotations and translations	81	GM4.1	Pythagoras' theorem
GM2.2	Enlargement	90	GM4.2	Measures and units
GM2.3	Scale drawing	96	GM4.3	Prisms and cylinders
				197
			S3.1	Probability
			S3.2	Experiment
				203
				207
